PROB 12A (7/93)

¥

U.S. Probation Officer Action: According to his probation officer in Woodland Hills, California, after Wright was unable to provide the urine specimen at the drug testing facility, he would then immediately travel to the probation office and provide a urine specimen the same day. All specimens tested negative for alcohol or illegal drugs. Wright's probation officer explained that the offender, who is taking care of his children while his wife is working, was having a hard time meeting the demands of driving to the drug testing facility in time to drop his specimen off. Wright, since this issue has been addressed with him by his probation officer, has made arrangements to ensure he is timely with providing the urine specimens at the drug testing site. Wright continues to attend monthly drug counseling meetings, he recently completed a rational behavior group at the VA, and was recently accepted into a substance abuse support group for veterans. His probation officer visits him at his residence a minimum of twice monthly. According to his probation officer, based upon the probation officer's assessment, Wright should complete the remaining portion of his supervised release without any problem. It is recommended no action be taken regarding these technical violations.

Assistant U.S. Attorney, William Harris, concurs.
